

Digital Health Department and Digital Learning Studio

Teaching- Learning Platforms Such as AR-VR have brought a paradigm shift in the process of Learning and Understanding.

Augmented Teaching

Complex Topics Conveyed with
3D Interactive Models

Experiential Learning

Visualized Aided learning from
anywhere: Remote Classrooms

Formative Assessment

Conduction of Remote Evaluation
and Assessments

Digital Health Department and Digital Learning Studio

Expanding Horizons

Patient Care

Improved Patient Care through
Simulated Training

Healthcare Diagnostics

Improved Diagnostics with ease
of application

When Learning through AR-VR TL platform
75% Information Retention Rates and
275% Higher Confidence rates seen in Students
